Student Responsibilities and Expectations

It is your responsibility to maintain integrity, work hard and treat others with courtesy and respect.

This includes:

- Providing fair and honest feedback on training performance and on the content and presentation of courses.
- Paying all tuition fees and charges for which you are liable, by the set deadlines.
- Providing accurate and updated contact details (phone number and email address).
- Checking your email regularly throughout the course. This is the primary means by which the College correspond with you (e.g., course progress, assessment results, outstanding fees).
- Replying in a timely manner to all AIM Institute of Health & Sciences trainer and administrative communications to you, including emails, phone calls and text messages.
- To be eligible to issue the qualification, you must successfully complete all the assessment requirements of the course.

Qualification Pathways

Vocational Education & Training (VET) qualifications are aligned to the Australian Qualifications Framework (AQF), which is the framework for all qualifications in Australia across the school, VET and Higher Education sectors. One of the key objectives of the AQF is to facilitate pathways to, and through, formal qualifications.

AQF qualifications link with each other in a range of learning pathways between schools, VET providers and providers of higher education. The AQF provides flexible, transparent and systematic learning pathways and for the removal of boundaries between educational sectors.

Foundation Skills & LLN Test

Foundation skills are the combination of two frameworks:

- The Australian Core Skills Framework (ACSF) which includes English language, literacy and numeracy skills, learning and communication skills; and
- The Core Skills for Work Framework that includes non-technical skills, knowledge and understandings that underpin successful participation in work. These skills are often referred to as employability or generic skills. They include skills such as problem solving, collaboration, self-management, communication and information technology skills, and skills for work required for participation in work, the community and education and training.

Foundation skills are incorporated into all competency-based training programs, and you need to demonstrate competency in these as well as your technical competencies. All new students to the AIM Institute of Health & Sciences are required to take the LLN (language, literacy and numeracy test) as part of the orientation program.

Certification

Qualification

A qualification is issued when the student has completed all requirements as listed in the course information. The qualification certificate does not list the modules or units of competency completed (these are listed on the Academic Transcript).

Academic Transcript

The Academic Transcript is a full record of all of the units of competence, which comprise the training program. It provides a listing of your assessment results for each unit of competency.

The following results are used to record Unit outcomes on the Academic Transcript:

- Competent: The student has demonstrated competency in all learning outcomes for that unit, either through a learning or recognition pathway.
- Not Yet Competent: The student has been assessed and has not demonstrated competency in all of the learning outcomes for an individual unit.
- Withdrawn: The student has withdrawn after one quarter of the way through the unit and has not completed all required learning outcomes.
- Exempt: The student has been granted a credit transfer from studying the unit due to previous study.
- Competent via RPL: the student has demonstrated competency via a Recognition Process.

Statement of Attainment

A Statement of Attainment is issued when candidates have partially completed the qualification. This may be done in two ways:

- The student is not competent in all units of competence required for the full qualification, or
- A package of units has been delivered from an accredited and registered program.

The code and title of all units successfully completed by the student are listed on the Statement of Attainment.

Note: If course fees have not been paid, then no qualification, Academic Transcript or Statement of Attainment will be issued until receipt of fees.

What is USI and Why do I need it?

USI is the acronym for Unique Student Identifier. It is a reference number that creates an online record of your training and qualifications attained in Australia. If you don't have a USI, then you can't be awarded your qualification or statement of attainment.

Under the Unique Student Identifiers Act 2014, all RTOs must ensure they have a valid USI for any student that enrols in nationally recognised training from 2015. This means (unless you have an exemption issued by the USI registrar) that as a student you must provide us with your USI. For information about USIs including how to create one visit <https://www.usi.gov.au/>.

If you are having trouble creating a USI, we will assist you during the orientation session on the first day.

Visas and conditions

After you have successfully completed the application and enrolment process, you will be issued with a Confirmation of Enrolment (CoE). Once you have this, you can apply to the Department of Home Affairs for a student visa. You may choose to use a Registered Migration Agent or may choose to complete it yourself. More information about how to apply for a visa can be accessed here: <https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-finder/study>

Once you have received your visa, you must abide by its conditions. If you don't, you can be sent home and won't be able to finish your course. Conditions include (but are not limited to):

- Satisfy course progress requirements and maintain a valid enrolment for your course.
- Only work if you have been given permission to do so as part of your visa grant (and not work more than the stipulated number of hours).
- Maintain approved Overseas Student Health Cover (OSHC) while in Australia.
- Notify your training provider of your Australian address and any subsequent changes of address within 7 days.
- Complete the course within the duration specified in the CoE you received.
- Remain with the principal education provider for 6 months unless you are issued with a letter of release from the education provider to attend another institution.

Orientation Information

On the first day of your course, we will deliver an orientation session to you which includes an induction session. It's vital that you attend this as we will cover the following topics:

- Course information.
- Facilities and resources available at our campus.
- Emergency evacuation procedures.
- Your rights and responsibilities as a student.
- Support services available.
- Legal, emergency and health services.
- Safety relevant to Australia and your environment.
- Critical incidents and critical incident reporting
- Policies about course progress, deferral, suspension and cancellation, course transfer and our complaints and appeals process.
- Student visa conditions related to course progress.
- Information about work rights.
- Question and answer session
- Assistance in creating your USI if you have not done so already.

Also, please note that, if you have not enrolled in your course within 14 days of the commencement date indicated on your CoE, your CoE will be cancelled as non-commencement. New application for the course will be required.

Timetable

You will receive your course timetable on the orientation. The classes will be held face-to-face for at least 20 hours per week.

The timetable details the commencement and completion dates for each unit, and this forms the basis of your commitment to study. If completion dates are not met, your study plan will need to be reviewed and enrolment will need to be varied.

Policies and Procedures

You are encouraged to make yourself familiar with the following College policies and procedures for your rights and obligations as an Australian student visa holder. These policies and procedures are in the Student Handbook.

- Complaints and Appeals Policy and Procedure
- Course Progress Policy and Procedure
- Deferring, Suspending and Cancelling Overseas Student Enrolment Policy and Procedure

Harassment

AIM Institute of Health & Sciences is committed to providing a safe, healthy, and family and community focused working environment for all employees, contractors and visitors. AIM Institute of Health & Sciences will not tolerate any form of harassment within the organisation under any circumstance. AIM Institute of Health & Sciences will investigate any allegation in a fair, confidential, and timely manner and take necessary disciplinary action against any employee found to be breaching this policy.

Harassment is offensive, belittling, or threatening behaviour directed at an individual or group. Harassment is behaviour that is unwelcome, unsolicited, usually unreciprocated, and usually (but not always) repeated. Harassment is often focused on sex, cultural or racial background or disability of the individual or group.

For harassment to occur there does not have to be an intention to offend or harass. Individual incidents may seem too trivial to warrant attention, or the person subjected to harassment may seem unaffected. Where the behaviour continues over a period and it is not addressed, however, such behaviour can undermine the standard of conduct.

Examples of harassing behaviour include:

- Offensive physical contact, derogatory language or intimidating actions,
- Insulting or threatening gestures or language (overt or implied) or continual or unwarranted shouting,
- Openly displaying pictures, posters, graffiti or written materials which might be offensive to some,
- Phone calls or messages on electronic mail or computer networks which are threatening, abusive or offensive to students/staff, or

- Sexual harassment, which can consist of any or all the following:
 - Unwelcome comments about a person's sex life or physical appearance,
 - Suggestive behaviour such as leering or ogling,
 - Unnecessary familiarity such as deliberately brushing up against a person,
 - Sexual jokes, offensive telephone calls, photographs, reading matter or objects,
 - Sexual propositions or continual requests for dates,
 - Physical contact such as touching or fondling, or
 - Indecent assault or rape (which is a criminal offence).

It is the responsibility of each person to recognise and respect the boundaries set by others. It is important to talk to a trainer or other appropriate person if you feel you are being harassed.

Access and Equity

AIM Institute of Health & Sciences is committed to ensuring its training and courses are responsive to the diverse needs of all clients. AIM Institute of Health & Sciences will comply with the principles of access and equity and aims to ensure that no course participant or potential participant should be disadvantaged or discriminated against based on race, sex, age, pregnancy, religion, marital status, sexuality, or physical or intellectual impairment.

Occupational Health and Safety

Under the ACT Work Health and Safety Act 2011, AIM Institute of Health & Sciences exercises its duty of care towards students, to achieve a healthy, low risk and quality-working environment. To meet this responsibility AIM Institute of Health & Sciences will:

- Comply with all relevant legislation and statutory requirements, codes of practice and industry standards and make adequate provision of resources to meet these requirements.
- Promote health, safety, and environmental and quality awareness in the development of standard work practices.

Information on the ACT Work Health and Safety Act 2011 can be found at <https://www.legislation.act.gov.au/a/2011-35/>.

Plagiarism

Plagiarism is considered one of the most serious breaches of academic honesty and will result in serious penalties. Plagiarism is the use of another person's thoughts and/or intellectual property without appropriate acknowledgment or reference. Plagiarism includes:

- Submitting, as one's own, an assessment that another person has completed.
- Using information, text, artwork, graphics or other material from any source including the Internet and presenting it as one's own without acknowledgment.
- Quoting or paraphrasing material from a source without acknowledgment
- Contributing less, little or nothing to a group assessment and then claiming an equal contribution and share of the outcome.

Please discuss any concerns with your trainer/assessor or academic manager.

RPL and Credit Transfer

Credit transfer is a formal recognition of previous studies and can help to reduce the duration of your course, as well as fees. You may apply for a credit transfer for a complete unit or modules within a unit. There is no charge to apply for a credit transfer, but you need to let us know that you want to apply for this on your application for enrolment form in the relevant

section. You will need to provide a certified copy of your certificate either issued by another education provider or an authenticated VET transcript issued by the USI Registrar.

Recognition of Prior Learning (RPL) is a process where skills and knowledge that you have gained through work and life experience and other unrecognised training can be formally recognised. You need to let us know that you want to apply for RPL at the time of application by indicating this on the application for enrolment form in the relevant section. There is a charge for RPL and this can be viewed in the **Fees and Refunds** section of this handbook. RPL can also reduce your course duration and fees.

We will inform you in writing of any reduced course duration and fees due to credit transfer and RPL and issue your CoE for the reduced duration of the course.

What can I expect during training and assessment?

Vocational training and assessment are all about practical and competency-based learning and assessment that is relevant to industry and our modern world.

You will learn in the classroom and/or the practical work environment where the industry conditions are simulated to prepare you for your chosen field. You are required to undertake a range of assessment activities dependent on the course you are undertaking. Your assessment tasks will either be marked as Satisfactory or Not Satisfactory and achievement of a Satisfactory result for all assessment tasks within a unit of competency results in a mark of Competent for that unit. Once you have received a mark of Competent for all units that make up the qualification– you will be eligible to be awarded your qualification.

Re-assessment arrangements

Arrangements for reassessment will be arranged with you directly with your trainer/assessor if, and as, necessary. You are entitled to two resubmission attempts at each assessment task and if you exhaust all attempts, then you will be required to pay an additional cost for re-assessment or re-enrolment, depending on your case.

We can't guarantee that you will be awarded your qualification as this is dependent on you and the work you put into your course. We will provide you with all the necessary facilities, equipment, trainers and support to complete the qualification – but the outcome of it depends on you. We also can't guarantee that you will find work in your chosen field, as this depends on factors beyond our control – but what we can guarantee is that we will provide you with consistent training and an industry-relevant course with the support and guidance from a fantastic team of dedicated trainers who care about your individual progress. Each student matters to us – and your positive outcome and successes are successes of our college community also.

Living and studying in Australia

Study in Australia

Did you know Australia has the third highest number of international students in the world behind only the United Kingdom and the United States despite having a population of only 23 million? This isn't surprising when you consider Australia has seven of the top 100 universities in the world! In fact, with over 22,000 courses across 1,100 institutions, Australia sits above the likes of Germany, the Netherlands and Japan.

These are strong academic credentials, but our institutions are just as highly rated as the cities that house them around the country. Australia has five of the 30 best cities in the world for

students based on student mix, affordability, quality of life, and employer activity – all important elements for students when choosing the best study destination. And with more than A\$200 million provided by the Australian Government each year in international scholarships, we're making it easier for you to come and experience the difference an Australian education can make to your future career opportunities.

Do you have a specific study area of interest? There is every chance Australia has you covered, with at least one Australian university in the top 50 worldwide across the study areas of Natural Sciences & Mathematics, Life & Agricultural Sciences, Clinical Medicine & Pharmacy, and Physics.

Given this impressive education pedigree, it's not surprising there are now more than 2.5 million former international students who have gone on to make a difference after studying in Australia. Some of these students are among the world's finest minds. In fact, Australia has produced 15 Nobel prize laureates and every day over 1 billion people around the world rely on Australian discoveries and innovations – including penicillin, IVF, ultrasound, Wi-Fi, the Bionic Ear, cervical cancer vaccine and Black Box Flight Recorders – to make their lives, and the lives of others, better.

Australia is recognised as a great place to live - but did you know Australia also offers a world class education? The Australian education system has produced scientists, designers, educators, entrepreneurs, artists and humanitarians who have changed the world, winning awards from Oscars to Nobel prizes. Their global achievements include the "black box" now on every airplane, the Earth hour initiative, and the invention of Wi-Fi. Australia is proud of the individuals who have studied and worked in Australia (whether they were born here or another country) and gone on to achieve great things and contribute to making the world a better place.

Global Recognition

By studying in Australia, you will receive a qualification that's recognised and sought after around the world. The Australian Qualifications Framework (AQF) allows students to easily move through the education system here and provides an easy way for countries around the world to recognise your qualification and issue the comparable qualifications for local use.

Quality Assurance

For over 20 years Australia has led the world in putting in place systems and processes to ensure that international students receive the high-quality education they expect. These measures include:

- The Education Services for Overseas Students (ESOS) Act 2000, which sets out the legal framework governing delivery of education to overseas students studying in Australia on a student visa.
- The Tuition Protection Service, which helps you find an alternative course or refund your unspent tuition fees in the rare case that your institution (education provider) can't continue to offer your course.
- The Australian Skills Quality Authority (ASQA) is the national regulator for Australia's vocational education and training sector. ASQA regulates courses and training providers to ensure nationally approved quality standards are met.

- Ombudsman organisations that can investigate complaints about problems that international students have with their institutions. You can find out more about these organisations on the Support Services page in the Australian Education section of this website.

International students rate Australia highly

In 2018, the Australian Government, in collaboration with peak education bodies and state/territory government education departments, conducted a survey of current international students to obtain information about their living and learning experience in Australia. The key findings of the survey included:

- 89% of international student respondents are 'satisfied' or 'very satisfied' with their overall experience in Australia.
- 89% of international student respondents are 'satisfied' or 'very satisfied' with their study experience in Australia.
- 90% of international student respondents are 'satisfied' or 'very satisfied' with living in Australia.

Your learning environment

By choosing to study in Australia, you will join hundreds of thousands of students from Australian and all over the world - including many from your home country - who are discovering new friends and opportunities in this beautiful country. You will work closely with classmates, researchers, instructors, and other faculty - collaboration is a key part of our students' successes. And in many cases, you can gain practical and hands-on training in the industry in which you are studying. This combination of teamwork, shared learning, and industry focus will provide you with a leading edge for your further studies and career.

Australia – a research intensive country

Australia has a long and proud tradition of world class research and development that has benefited millions around the world. From the discovery of penicillin in 1945 and the discovery of acquired immunological tolerance in 1960, through to observations which led to the discovery of the accelerating Universe in 2011. Australia has a proud record of contributing to the benefits of the world:

- Through the Backing Australia's Ability initiative, A\$2.9 billion will be invested over the next five years to fund research that will stimulate economic and scientific innovation.
- Australia is investing over A\$140 million will be spent over the next five years to establish Federation Fellowships. The fellowships aim to recruit world-class researchers to Australia, with up to five of the fellowships each year awarded to high-profile non-Australian researchers from overseas.
- There are 35 special Research Centres and Key Centres of Teaching and Research based at Australian universities undertaking high-level research, and providing a diverse range of undergraduate, postgraduate, and specialised professional education courses in a variety of fields.
- Australia has established an additional 63 Cooperative Research Centres which foster joint research between universities and private industry.

Live in Australia

While shared to some extent by many other countries, values and principles have been adapted to Australia's unique setting, shaped, and modernised through the settlement in Australia of millions of people from all over the world. Although they may be expressed differently by different people, their meaning remains the same. Australia's first inhabitants were the Aboriginal and Torres Strait Islander peoples, whose unique culture and traditions are among the oldest in the world.

The first migrants were mostly from Britain and Ireland and this Anglo–Celtic heritage has been a significant and continuing influence on Australia's history, culture, and political traditions. Subsequent immigration waves have brought people from Africa, Asia, the Americas, and Europe, all of whom have made their own unique contributions to Australia and its way of life.

In Australia, people have many freedoms. However, in taking advantage of these freedoms, everyone is required to obey Australia's laws, which have been put in place by democratically elected governments to maintain an orderly, free and safe society.

Fundamental freedoms

All Australians are entitled to a number of fundamental freedoms (within the bounds of the law), including speaking freely and openly, joining associations, holding meetings, worshipping their chosen religions and moving throughout Australia without restrictions.

Respect for equal worth, dignity, and freedom of the individual

All Australians are free and equal and are expected to treat each other with dignity and respect. Australians reject the use of violence, intimidation, or humiliation as ways of settling conflict in our society.

Commonwealth laws prohibit discrimination on the basis of race, sex, disability and age in a range of areas of public life under the Racial Discrimination Act 1975, Sex Discrimination Act 1984, Disability Discrimination Act 1992 and the Age Discrimination Act 2004. The Australian Human Rights Commission is responsible for handling complaints under these laws.

Freedom of speech

All Australians are free, within the bounds of the law, to say or write what they think about Australian governments or about any other subject or social issue as long as they do not endanger people, make false allegations or obstruct the free speech of others.

The same applies to Australian newspapers, radio and television and other forms of media. Australians are free to protest the actions of government and to campaign to change laws. Freedom of speech allows people to express themselves and to discuss ideas. There are laws that protect an individual's good name against false information or lies. There are also laws against inciting hatred against others because of their culture, ethnicity, or background.

Freedom of religion and secular government

All Australians are free to follow any religion they choose, so long as its practices do not break any Australian law. Australians are also free to not follow a religion. Religious intolerance is not acceptable in Australian society. Australia has a secular government – it does not have any official or state religion. Governments treat all citizens as equal regardless of religion.

Religious laws have no legal status in Australia and only those laws enacted by parliament apply, for example, in divorce matters. Some religious or cultural practices, such as bigamy (being married to more than one person at the same time) are against the law in Australia.

Support for parliamentary democracy and the rule of law

Australia is a parliamentary democracy, which means that Australian citizens participate in how the country is governed and how Australian society is represented. Governments are accountable to all Australians. Elected parliaments are the only bodies able to make laws in Australia or delegate the authority to make laws. Everyone in Australia must obey laws established by governments. Equally, all Australians are protected by the rule of law. This means that no-one is exempt from or 'above the law', even people who hold positions of power, like politicians or the police.

Equality under the law

All Australians are equal under the law. This means that nobody should be treated differently from anybody else because of their race, ethnicity, or country of origin; because of their age, gender, marital status or disability; or because of their political or religious beliefs. Government agencies and independent courts must treat everyone fairly. Being treated equally means that getting a job or being promoted must be on the basis of a person's skills, ability and experience, not their cultural background or political beliefs. It also means that people cannot be refused service in a shop or hotel or other service facility because of their race, colour, religion, gender or marital status.

Equality of men and women

Men and women have equal rights in Australia. Jobs and professions are open equally to women and men. Men and women can serve in the military, and both can also hold positions in government.

Equality of opportunity and a spirit of egalitarianism

Australians value equality of opportunity and what is often called a 'fair go'. This means that what someone achieves in life should be a product of their talents, work, and effort rather than their birth or favoritism.

Australians have a spirit of egalitarianism that embraces mutual respect, tolerance, and fair play. This does not mean that everyone is the same or that everybody has equal wealth or property. The aim is to ensure there are no formal class distinctions in Australian society.

Peacefulness

Australians are proud of their peaceful society. They believe that change should occur by discussion, peaceful persuasion, and the democratic process. They reject violence as a way of changing peoples' minds or the law. In addition to these values, Australians also pursue the public-good and have compassion for those in need. There is a strong community spirit in Australia and Australians seek to enhance and improve the society in which they live.

Many Australians contribute to the community in their daily lives. They may demonstrate this through caring for the environment, lending a hand and working together in times of need in pursuit of the public good. Australia has a strong tradition of 'mateship', where people provide help to others voluntarily, especially those in difficulty. A mate is often a friend but can also be a spouse, partner, brother, sister, daughter, or son. A mate can also be a total stranger.

There is also a strong tradition of community service and volunteering. The values outlined above have been promoted and discussed by Australians over many years. They have helped Australia to welcome and successfully integrate millions of people from many ethnic groups and cultural traditions. Australia's cultural diversity is a strength which makes for a dynamic society. Within the framework of Australia's laws, all Australians have the right to express their culture and beliefs. But at the same time, all Australians are asked to make an overriding commitment to Australia – its laws, its values, and its people.

Shared values

Although Australia's migrants have come from many different cultural and religious backgrounds, they have successfully settled in Australia and integrated into the broader community. Australia, in turn, has been enriched by the contributions they have made socially, culturally, and economically. An important feature of Australian society today is not only the cultural diversity of its people, but the extent to which they are united by an overriding and unifying commitment to Australia.

Australians put aside their individual differences in the interests of living together as neighbours. Within the framework of Australia's laws, all Australians have the right to express their culture and beliefs and to participate freely in Australia's national life. At the same time, everyone is expected to uphold the principles and shared values, as outlined in the introduction, that support Australia's way of life.

Australian society today

One of the defining features of Australian society today is the cultural diversity of its people and the extent to which they are united by an overriding and unifying commitment to Australia. Another defining feature is the egalitarian nature of Australian society. This does not mean that everyone is the same or that everybody has equal wealth or property. It also means that with hard work and commitment, people without high-level connections or influential patrons can succeed.

Within the framework of Australia's laws, all Australians are able to express their culture and beliefs and to participate freely in Australia's national life. Australia holds firmly to the belief that no-one should be disadvantaged on the basis of their country of birth, cultural heritage, language, gender or religious belief. In order to maintain a stable, peaceful and prosperous community, Australians of all backgrounds are expected to uphold the shared principles and values that underpin Australian society.

Laws and social customs

Community behaviour in Australia is governed by a combination of formal laws and informal social customs. All people in Australia must obey the nation's laws or face the possibility of criminal and civil prosecution. People are also expected to generally observe Australian social customs, habits, and practices even though they are not normally legally binding. Australian laws are made by the Australian Commonwealth, state, and territory parliaments. The police have the job of keeping peace and order in the community and to bring people they believe have broken the law before courts of law.

People in their local communities and neighbourhoods also help each other in the event of trouble and report anything unusual or suspicious to the local police station. Australia has a national police force called the Australian Federal Police, which investigates crimes against federal laws including drug trafficking, illegal immigration, crimes against national security and crimes against the environment.

All states of Australia and the Northern Territory have their own police forces, which deal with crimes under state or territory laws. Policing in the Australian Capital Territory is undertaken by the Australian Federal Police. Although police officers may arrest people and give evidence in court, they do not make the final decision on whether or not people are guilty of crimes. This is decided by the courts. Police and the community have good relations in Australia. You can report crimes and seek assistance from the police. If you are questioned by police, remain calm, be polite and cooperative.

Cost of living

Migration regulations in Australia require international students to show evidence that they can contribute to the cost of living and studying in Australia. This helps to ensure students are better able to make the most of their studies and have a safe and enjoyable experience in Australia.

While international students are able to supplement their income with money earned through part-time work in Australia, the 'living costs' requirement helps to support the success of students in their studies by ensuring that they don't have to rely on such work to meet all their expenses.

Transfer to another Provider Policy

AIM Institute of Health & Sciences assesses requests from students for a transfer between the AIMIHS and other registered providers, prior to the student completing 6 months of his/her principal course of study, in accordance with this policy and procedure.

In line with Standard 7 of the National Code 2018, the AIMIHS will not knowingly enrol an overseas student wishing to transfer from another registered provider's course prior to the student completing 6 months of their principal course of study, except in limited circumstances as below:

- Releasing registered provider, or the course in which the overseas student is enrolled, has ceased to be registered;
- Releasing registered provider has had a sanction imposed on its registration by the ESOS agency that prevents the overseas student from continuing his or her course at that registered provider;
- Releasing registered provider has agreed to the overseas student's release and recorded the date of effect and reason for release in PRISMS;
- Any government sponsor of the overseas student considers the change to be in the overseas student's best interests and has provided written support for the change

Note that in the very rare circumstances where the original provider or course has ceased to be registered, or sanctions have been placed by the Australian government or by Federal Regulator, by which student cannot continue his/her course at original provider, the AIMIHS will not consider 'release' information on PRISMS. Evidence of this occurrence would be placed in the student file.

Procedure

Procedure (Transfer to the AIMIHS)

1. Any requests that are received in relation to a student transfer will be directed to the RTO Manager (PRISMS officer). The RTO Manager will then assess the applications to transfer education providers and advise the student about the outcome as outlined in the procedure.
2. RTO Manager accesses the student information via documents provided by student at the time of enrolment/application. This is done to determine if the student has completed 6 months of study in their principal course or not.
3. If they have completed more than 6 months of their principal course of study, then the RTO Manager will process the application and will seek the fee pending status from finance department.
4. If the student has NOT completed 6 months of their principal course of study, the relevant information is checked where the previous provider has recorded releasing information on PRISMS.
5. If releasing from the previous provider is required on PRISMS, for students who have not completed 6 months of their principal course of study, the AIMIHS will not enrol the student.
6. If RTO Manager rejects the application of transfer to the AIMIHS, student is informed about the decision via email.
7. If student release from the previous provider is provided, then the RTO Manager processes the application in accordance with the AIMIHS' Admissions Policy and Procedure.

Procedure (Transfer from the AIMIHS)

1. Students who seek to transfer to another provider prior to completing 6 months of their principal course must make a written request to RTO Manager. The application must be accompanied with a valid 'Letter of Offer' from the new provider authenticating the transfer and the justification on how the new intended course will benefit the student.

2. The following circumstances are outlined below where the AIMIHS will grant the transfer request in the overseas student's best interests, including but not limited to:

- The AIMIHS has cancelled/ceased to offer the course as outlined in the Written Agreement.
- Government considers the change to be in the student's best interest, if they are a sponsored student (written confirmation from sponsor required).
- There is evidence that the student was misled by the registered provider or an education or migration agent regarding the registered provider or its course and the course is therefore unsuitable to their needs and/or study objectives.
- Student has provided sufficient evidence of compassionate or compelling circumstances.
- Student will be reported because they are unable to achieve satisfactory course progress at the level they are studying, even after engaging with the intervention strategy in accordance with Standard 8 of National Code 2018 and the AIMIHS' Course Progress Policy and Procedure.
 - There is evidence that the student's reasonable expectations about their current course are not being met.
 - An appeal (internal or external) on another matter results in a decision or recommendation to release the student.
- Exceptional circumstances (documentation required to support circumstances).

3. If the application is found to be genuine and the RTO Manager approves the transfer, the student's enrolment at the AIMIHS will be cancelled and student release information will be recorded in PRISMS. The student will also be advised of the need to contact Department of Home Affairs (DHA) and check if their existing visa allows them to study the intended course.

4. The RTO Manager reports the student's termination of studies to the appropriate government agency(s) via PRISMS.

5. The approval of transfer does not guarantee or does not indicate the agreement to provide any refund.

6. Where the transfer is not in the best interest of the student, the request to transfer to another registered provider will be rejected. Reasons for rejection may include but are not limited to:

- Outstanding debt to the AIMIHS.
- New course or location or outcome is not suitable to student situation
- Intended Provider is not a CRICOS registered provider
- The welfare of the student is compromised

7. This decision of the appropriateness of the transfer will be made by the RTO Manager and shall be given to the student in writing. The above process should not take more than 7 days once the student has provided the necessary documentation.

8. In an event where the student's application of transferring to another provider is rejected, the student will be informed in writing about student's right to appeal against the decision.

9. Student will have access to the AIMIHS' Complaints and Appeal processes. Students can appeal against the decision within 20 working days after the outcome is informed to the student.
10. The AIMIHS will not finalise the student's refusal status in PRISMS until the appeal finds in favour of the registered provider, or student has chosen not to access the complaints and appeals processes within the 20-working day period, or student withdraws from the process.
11. The AIMIHS will maintain records of all requests from student and the assessment of, and decision regarding, the request for the period of 2 years after student ceases to be an accepted student.
